THE WASHBURNE-DONNELLY ELECTION CASE.

Committee Decision that the Seat is Vacant.

WASHINGTON, April 1.—The House Election Committee decided this morning that neither Washburne nor Donnelly is entitled to the seat now occupied by Mr. Washburn of Minnesota. The first vote was on the resolution that Washburn is not entitled to his seat, on which the ayes were—Weaver, Phister, Sawyer, Armfield, Colerick, Manning—6. Noes—Keifer, Overton, Field, Calkins and Spear—5. Mr. Springer was paired with Mr. Clark and Mr. Beltshoover with Mr. Camp. The second was on the proposition, "Is Donnelly entitled to a seat," and on this the vote was: Yeas—Sawyer, Armfield, Colerick, Manning—4. Noes—Weaver, Overton, Field, Calkings, Keifer, Phister, Spear and Springer—8. Beltshoover was paired with Camp, and Clarke absent. This practically declares the seat vacant.

THE DEFICIENCY BILL.

After the business hour Senator Edmunds took the floor to show the illegality of the Marshal's clause in the Deficiency bill.

POSTMASTER APPOINTED.

The President has nominated Francis P. Vincent Postmaster at Cottage City, Mass.

A CRAZY FAMILY.

Williamson, the "Gentleman Joe" annoyer of Dr. Dix in New York, has a cousin now living in this city who is insane, and several other members of the family are said to be disordered in intellect.

POLITICAL.

The Blaine men are jubilant over their news from Kansas, where the talk has been "Blaine and Ingalls."

RAILROADS AND LAND GRANTS.

Mr. Chalmers, of the House Railroad Committee, has introduced a bill providing for the forfeiture of all land grants where railroads have not completed their lines within the time specified; said lands to be sold by the Government and from the proceeds the Government shall advance to any such railroads two-thirds of the amount necessary to construct said roads; the roads to give a mortgage for the moneys so advanced.

WASHINGTON NOTES.

Assistant Secretary of the Treasury J. K. Upton entered upon the discharge of his new duties today. Major Power took charge of the chief clerk's office and Mr. McLennon of the warrant division.

The House Committee on Military Affairs adopted two resolutions to be attached to the Army Appropriation bill. The first has exactly the same provision that was in the rider of the bill when pressed last year—that no money appropriated shall be used for conveying troops to and from the polls.

Foreign Notes.

GLASGOW, April 1.—A great election meeting was held here yesterday, during which a gallery in the hall holding 100 persons suddenly collapsed and many persons were seriously injured.

DUBLIN, April 1.—Mr. Parnell arrived yesterday at Ennis and met with an ovation from the people.

PARIS, April 1.—M. Teisseirence de Bort, the French ambassador at Vienna, has tendered his resignation.

ROME, April 1.—The Pope will send an extraordinary mission to Mexico.

VIENNA, April 1.—The negotiations between Turkey and Montenegro are proceeding very favorably.

LONDON, April 1.—The cattle disease is spreading rapidly in several counties in England, and the demand for American meats is consequently increasing.

Emigrants for America are numerous at all ports of Europe to depart during April and May. The great majority of them go to the Western and Southern states.

The San Francisco Election.

SAN FRANCISCO, April 1.—Owing to mismanagement on the part of some election officials the count is not complete, but the majority of the Citizens' ticket will not vary much from 6000. It is not decided whether the Workingmen will contest the election on account of the difference in the ballot paper, though the report is that they will. The facts regarding the paper are ascertained to be that the Workingmen procured their paper from the Secretary of State, while the Citizens obtained theirs from a dealer in the city. There is no evidence that the variation in color was the result of intention.

Burning of a Texas Court House and Jail.

NEW ORLEANS, April 1.—The Times' San Antonio special reports the incendiary burning of Brown county court house and jail, destroying the records and cremating several prisoners. Loss $100,000.

The Parliamentary Elections.

LONDON, April 1.—The Pall Mall Gazette admits that the government is defeated in the elections. Additional returns show that 11 more Liberals, 7 Conservatives and 2 Home Rulers are elected to Parliament.

The Echo says the total votes cast thus far aggregate 343,568 Liberal and 231,350 Tory.

Severe Weather in Nova Scotia.

HALIFAX, April 1.—The weather continues exceeding stormy, and the snow in the streets is now from three to four feet deep and in the country in some places 10 feet deep. The mail trains are all delayed and in some instances cancelled. Several steamers are still in port waiting for favorable weather. A train from Halifax with two engines ran off the track at Debert bridge, the forward engine falling through the bridge and being wrecked. No one was injured. There has been no communication with Halifax since Tuesday.

The Cohoes Strike.—Some of the Old Hands Return to Work.

TROY, April 1.—The strike at Cohoes remains *in statu quo.* Yesterday excitement was caused among the disaffected workmen by the arrival of several families from Canada. As the new comers passed through the streets to the homes of their friends a crowd of 500 strikers followed. Several spinners, comprehending the situation, then quickly formed a protective guard and accompanied the Canadians to their destination. There was a rumor afloat that Manager Johnson had gone East to make a purchase of filling. There is no truth in the story. Johnston has gone in an entirely different direction, on another mission. Pay day in No. 2 mill comes Saturday, and the amount to be distributed will be less than $10,000 which is about half the sum heretofore paid every four weeks. This morning thirty-five looms were started in No. 1 mill weave room. Here the first strike began, and the weavers in that department assumed the initiatory in support of the spinners' demands. Frequent conference between committees of the strikers and the officials of the Harmony Mills have been held, without result. The differences between the striking section hands in the Harmony Mills and the company are settled. The latter resumed work at noon today. The spinners and weavers were obdurate.

Yesterday afternoon the moulders in Wood's Mowing-machine Works, at Hoosick Falls, struck for an increase of 20 per cent. The company agreed to increase 15 per cent. and the men resumed work this morning.

GRANT IN LOUISIANA.

The General's Reception in New Orleans.

NEW ORLEANS, April 1.—Gen. Grant had a reception at the St. Charles Hotel from 1 to 3 o'clock this afternoon, and afterwards took a drive through the city. Last night the Carnival court, having serenaded the Queen and other distinguished members of the court, in accordance with the usual custom, repaired finally to the mansion of Albert Baldwin, President of the Royal Host, where a large company, including General Grant, who had been specially invited, was in attendance. After an introduction to the ex-President, the entire company participated in a magnificent banquet. During its progress, Mr. Baldwin announced that the General had been elected a member of the Royal Host and the title of Duke of America bestowed upon him. The General was immediately decorated with the order of St. Rex by the Lord High Chamberlain, and acknowledged the compliment in substance as follows:

Ladies and Gentlemen: I thank you very much for this kind reception, and for the compliment which the Rex Association has just paid me, for pronounced Republican as I am, it would under ordinary circumstances hardly be proper for me to accept the distinction which you have just conferred upon me, especially as I have been frequently charged with an attempt to seize upon a higher title, but as I said before, under such circumstances, and appreciating the objects of your worthy organization, I accept the title of Duke, and thank you again for the compliment paid, and the kind reception tendered me.

LATEST CUBAN ADVICES.

The Tobacco Growth Almost Entirely Destroyed.

NEW YORK, April 1.—A Havana letter of March 27th says the captain of brig Emma L. Hall was fined $1200 for alleged evasion of customs laws at Matanzas. The American consul is investigating the case.

A drought prevailed three months in most of the fertile portions of the island, which did immense damage. The tobacco crop in Vuelta Abajo is almost destroyed and the plantations are unusually exposed to fires. On many plantations the crops are gathered, and on all they are nearly so. Fears of a short sugar crop are realized, as cane is in poor condition. It is estimated, though not conclusively, that the total crop will not exceed 400,000 tons.

The insurrection in the east of the island languishes, but robbery and vagrancy increase fearfully in both town and country.

A party of insurgents were defeated March 27, in Santa Clara district. The insurgents were overtaken the next day in Remedios district and completely beaten and dispersed. They left five dead, of whom two were Lieutenants. The Spaniards lost one killed and three wounded. Another party was beaten in the jurisdiction of Cinco Villas and four killed, among them Capt. Alejandro Garcia, brother of the well-known Chief Garcia. Numerous other small encounters and surrenders are reported in the provinces of Guantanamo and Santiago de Cuba. The insurgents are scattered in small bands extending into the jurisdiction of Cinco Villas.

Explosion of Fire Damp in a Belgian Colliery.

MONS, Belgium, April 1.—An explosion of fire damp occurred yesterday in the colliery at Anderlues. The number of lives lost is unknown, but twenty corpses have already been recovered. There were 150 persons in the pit at the time of the disaster.

SECRETARY SHERMAN'S SPEECH.—Secretary Sherman's speech in Ohio last night was, as might be expected, soundly Republican in sentiment. The issues between the two parties and which must enter into the canvass of 1880, he clearly sets forth. The most important of all impending issues is that involved in the Democratic assumption of the Calhoun doctrine of state supremacy, and upon that fact Mr. Sherman places the greatest stress. Many persons insist upon losing sight of this issue, in utter disregard of the fact that a Democratic Congress shows its determination to reassert and re-establish that heresy by scores of bills and in many speeches. Mr. Sherman in a manly manner declares that he is a candidate for Republican nomination. He may not be the favorite of today, but it is not saying too much to add that he is entitled to the undivided confidence and respect of the Republican party.

GENERAL ASSEMBLY.

JANUARY SESSION AT PROVIDENCE.

SENATE.

THURSDAY, April 1.

The Senate met at 11 o'clock Gov. Van Zandt in the chair.

Senator Cross, from the committee on education, reported favorably on the act to provide for the appointment of a clerk in the office of the commissioner of public schools, at an annual salary of $500. The Senator spoke in favor of the passage of the act and his remarks were supplemented by the Governor who said such assistance should be provided for the convenience of the public.

The matter was laid on the table temporarily.

The resolution to build a shed adjoining the Providence County Court House, came back from the House with an amendment. This occupied the time of the Senate for a long time and was finally passed.

HOUSE OF REPRESENTATIVES.

The House met at 10.30, Mr. Speaker Spooner in the chair.

Mr. Gregory presented petitions for acts to incorporate the Argyle Mills. Referred to the committee on corporations. Both were subsequently reported back, and continued to the May session with order of notice.

Mr. Fay, from the committee on finance, reported resolution appropriating $30,000 for the purchase of uniforms for the state militia. The committee recommend the resolution.

Mr. Sheffield thought this a very large sum and that the people of the state would not get value received for it. The Assembly had no right to be generous with the taxpayers' money. It should be just before it is generous. The right exists in the legislature to take money for militia purposes. We have already appropriated $65,000 within a year, and now we are asked to appropriate $30,000 more, making the enormous amount of $95,000 which we are asked to take out of the pockets of the people.

Mr. Fay thought the last speaker had not discussed the question before the House. The style of organization of the militia was decided last year, and the question before the finance committee was necessary under the existing militia law. This was not a question of which was best, the voluntary system or any other system. It was the simple question of what was a necessary expense under the established law. And the finance committee were fully satisfied that this was a necessary expense.

Mr. Sheffield didn't think a military company should be estimated by the value or appearance of its clothes. He further argued against the appropriation on grounds of public policy. Newport paid one-ninth of the state tax, and they would never vote for this appropriation, especially as their principal company was barred out from any of these advantages.

Mr. Fay commented upon the reference to the opinions of the people of Newport, and said they had shown their desire to have a well equipped militia, by the readiness with which they responded to calls for subscriptions for this purpose. Mr. Sheffield himself had been generous in his response to such calls.

The debate on the militia act was resumed, and continued by Messrs. Bates of Pawtucket, Pendleton, of Westerly, Eames, of Providence, in favor, and Sheffield, of Newport, opposed.

The resolution then passed by a *viva voce* vote, and was ordered communicated forthwith to the Senate.

The Senate sent down petitions for acts to incorporate the Bristol Hotel Co., and Bristol Steam Ferry Co. Continued to May session, in concurrence.

Adjourned to Friday morning at 10:30 o'clock.

Some surprising prices were paid for books at the Brinley sale which has been in progress at New York during the week. One of the books thus honored was the first known issue of the press of Bradford, the first printer of Philadelphia and New York—a small almanac (Philadelphia, 1685) of twenty leaves, neither paged, bound nor cut. After a long contest, it was knocked down at $555—a sum of money which, in $50 bills, would make more paper than there is in the book. "Worth its weight in gold" is saying nothing. The state of New York was the purchaser of the "Laws and Acts" of the General Assembly, printed in 1694, and the first book published in New York, which brought $1600. Only five copies of this work are known to be in existence.

WARNER'S

SAFE

KIDNEY & LIVER CURE.

The following letter proves that BRIGHT'S DISEASE, in its worst form, IS CURABLE:

TOLEDO, O., Sept. 25, 1879.

MESSRS. H. H. WARNER & Co., Rochester, N. Y.—*Gentlemen:* Having escaped death from Bright's disease by the use of your Remedy, I feel it a duty, not only to acknowledge my gratitude to you personally, but also to bring my case before the public, and have those who are suffering similarly to judge whether a medicine not prepared by the "regulars" will cure the frightful malady or not.

In the summer of 1872 I was first taken ill, with symptoms which, I was informed, were those of Bright's disease. I went to Marquette, Mich., and called to my aid a physician of noted ability. After remaining a considerable time under his care, I found no improvement; on the contrary, my disease was considerably aggravated. I next placed myself in charge of one of the best physicians in Toledo, O., with no better result. I was then induced to try the skill of an eminent medical man in New York, and remained under his care six months. Finding myself growing steadily weaker, with no abatement of the kidney derangement, I began to despair of ever getting well.

In the summer of 1876 my friends induced me to go abroad, thinking that the sea voyage, together with the superior skill of foreign medical men, might effect a cure. I succeeded in gaining an introduction to the celebrated Dr. Declat of Paris, and remained under his care fifteen months. He used in my case what is known as the carbolic treatment, and then every method which the most scientific men of the profession on the Continent were known to employ. No improvement being apparent, the services of Dr. B., a gentleman of equal eminence, were next solicited. Seven months of careful treatment by this kind gentleman brought me to the beginning of the most aggravated symptoms of the disease. With swollen limbs, disordered liver, impaired digestion and serious irregularities of the heart, I proceeded to Manchester, Eng., and for five months my case baffled the skill of Dr. Roberts, one of the ablest men of his profession in England, and author of a work on diseases of the kidneys. His great knowledge did not avail in my case; and, finally, despairing of any improvement, much less a cure, I returned to my native land in the belief that I must soon die.

When I reached home two physicians were summoned, who, on subjecting samples of the urine to the test of heat and acid, discovered the presence of albumen in large proportion, while the microscope showed numerous casts. All this, together with the despairing look of my physicians, forced the agonizing conviction that death was inevitable. I then dismissed my medical attendants, with the intention of letting nature struggle on unaided to the end; for my confidence in the ability of medical men to cope with disordered kidneys had become, to say the least, greatly lessened. At this time, I weighed myself in the presence of several friends in the wholesale grocery establishment of Emerson & Co., Toledo, O., and turned the scales at 212¾ pounds, 67¾ pounds more than my ordinary weight when in health; in other words, the tissues of my body were saturated with 67¾ pounds, or about 8¾ gallons of water.

Finally, while listlessly lingering in pain and anguish, I was informed by a lady residing on Plymouth avenue, Rochester, N. Y., that one Charles Craig of Charlotte had discovered a remedy for Bright's Disease, with which he had cured himself and many others. I immediately repaired to his residence by the lake, and after a treatment of five weeks with the remedy (now called "WARNER'S SAFE KIDNEY AND LIVER CURE"), all my symptoms abated, and I began to feel that I was almost a well man. I returned home, taking with me a quantity of the medicine, and now, although months have elapsed since I took the last dose, I joyfully declare myself absolutely well, both in mind and body.

Should you have occasion in the future to use this letter, you are at liberty to do so, and any one who hesitates to believe the conclusiveness of my statements, is respectfully referred to the following persons, who were aware of the character of my ailment, and the apparent hopelessness of my case: Mme. Le Blanc, 30 Rue Drowot, Paris; Henri Du Bois, 11 Rue Malesherbes, Paris; Dr. Soteller, Bordeaux, France; Dr. E. Charmaux, Rue Algine and Lucas Vichy, France; M. Jean Gleliele, 51 Quai de la Meiks; Bernard Bradshaw, Esq., 3 York Chambers, Adelphi, London; J. W. Long, Esq., London; John H. Wilson, New York; J. O. Beer, Toledo, O.; Thomas Daniels, Toledo, O.; J. Prentice, Toledo, O.

Respectfully yours, CHAS. S. PRENTICE.

Newport Daily News, and the Newport Journal.

The Newport Daily News is published every afternoon (Sundays excepted), at the News Building, 131 Thames street, by Davis & Pitman.

The Newport Journal is published at the same office every Saturday morning and contains a selection of the best matter in the Daily, including editorial discussions of the topics of the week, literary miscellanies and at least one good story, the latest markets and a complete and comprehensive summary of the news,—local and general. The Journal is a large 32 column paper and contains a large amount of reading matter that is valuable to readers in town or country who desire a good Newport paper, but who do not take a daily from this city.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The Daily News, $6 per annum, or 12 cents a week, payable to carrier.

The Newport Journal will be sent to any address in the United States, postage paid, for $1 a year. A discount of 50 cents is made when the WHOLE YEAR is paid STRICTLY IN ADVANCE.

These terms are invariable.

ADVERTISING RATES.

Ordinary advertisements, $1 a square, for the first insertion, and 25 cents for each continuance. Ten lines, or less, in this type, make a square. Advertisements in reading matter, are charged for, at 50 per cent. extra and are subject to editorial revision. A discount on these rates is allowed on all advertisements ordered in the Daily for one week or longer. Funeral notices 50 cents each. Yearly advertisers are limited to their immediate business and are allowed twenty-five changes a year. The circulations of the News and Journal being necessarily distinct, an advertisement inserted in both papers will reach entirely different sets of readers. As further inducement for advertisers to use both the News and Journal, a liberal discount on the combined rates is made.

PRINTING.

Connected with the News is a large and well appointed job printing office. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

The job office has recently been supplied with new type and a new press, especially adapted to fine work. Liberal supplies of choice papers, envelopes and cards, always on hand. Prices as low as possible for first class work.

Newport Daily News.

FRIDAY, APRIL 2, 1880.

The Newport Journal will be ready today at about five o'clock.

The farmers are putting in their seed potatoes and planting early peas.

Ex-Gov. Talbot of Massachusetts has just given $3000 to the Methodist conference for the support of a Methodist pastor at Williamsburg.

The House Election Committee have decided that neither Washburn nor Donnelly is entitled to the seat now occupied by Mr. Washburn of Minnesota.

Sydney Smith once said, at the close of a Sunday sermon, "Do not imagine that this sermon is mine—I cannot do such things—it is by an American, Dr. Channing."

Senator Conkling has been recently interviewed on the presidential question. He is confident of General Grant's nomination and election. It is said that if it becomes necessary to go for a dark horse he will bring out Senator Windom, of Minnesota, as a candidate.

It is to be hoped that work will begin on Thames street soon, so that the repairs and improvements may be fully completed before the arrival of our first summer visitors. It will require considerable time in which to get the asphalt blocks in place and this is the best time to devote to it.

Mr. John B. Gough is reported as saying recently that drunkenness has increased in this country in the last 25 years, and that there are now more ministers drinking and more women drinking than ever before. But some of us beg leave to doubt the correctness of Mr. Gough's opinion.

It is reported from Washington that the chairman of the committee on credentials of the Texas Convention writes to a friend that the proposition to instruct for Grant was squarely defeated and gave way to instructions to vote as a unit. He says that Sherman holds the majority, and this will, under the instructions, give him the vote of the delegation.

Wednesday was the thirtieth anniversary of the death of John C. Calhoun. After the fall of Fort Sumpter, a few of his former friends took the responsibility of removing his remains from the Huguenot Cemetery at Charleston, to what they considered a more perfect place of safety. Where they now rest is known only to such of those persons as are living.

The Pioneer Press says that while a majority of the Republican voters of Minnesota prefer Mr. Blaine, it is quite probable that a Grant delegation will be elected, because a prominent Republican has promised to bring about such a result. Ah yes; we have heard something of that sort before. Westward the star of empire takes its way.

From $75,000 to $100,000 expended on the militia in Rhode Island in a year, is setting up a military government on a strong scale. Yet such bills are passed in the General Assembly with the utmost ease. We are glad to see that Hon. W. P. Sheffield spoke out against the extravagance in a manly way, and are sorry that he could not have the support of the entire Newport delegation.

A Washington special states that Senator Edmunds declines himself for Gen. Grant, and expects his nomination and election, and that he is not gratified at the support which certain Eastern papers, whose loyalty to the Republican party is gravely doubted, have given him. The same correspondent says that from information received in Washington, it is regarded as certain that in case of the nomination of General Grant a third ticket will be put in the field, headed by a Republican.

The Kelly Democrats have issued a call for an independent convention to be held at Syracuse on the same day as the regular or Tilden convention. The call asks every one opposed to a pledged, that is Tilden, delegation to Cincinnati, to send delegates to the bolting convention, and to clinch matters and throw the shadow of a coming bolt over the presidential campaign, the anti-Tilden convention is called to nominate an electoral ticket. In other words, a provisional electoral ticket, one ready to take the field if Tilden is nominated at Cincinnati, is to be put up in advance of the national convention. This is a desperate course for any faction to take, unless it has determined to carry its bolt through the campaign. Meanwhile the New York World shrieks for Horatio Seymour.

The great strike at the Lancaster gingham mills at Clinton, Mass., is over, the strikers being obliged to surrender, having gained nothing by their long struggle and loss of time. The situation of the strike in the Harmony mills at Cohoes is unchanged, except that French Canadians are taking the places left vacant by the strikers. If the help do not go back to work by Monday, a lockout will be inaugurated.

It is curious to see Republican France following so closely the example of Bismarck in the warfare against the Jesuits. The revival of the obsolete and almost forgotten laws against "unauthorized religious congregations", is just now the most exciting subject in France, and the decrees which have just been promulgated are likely to produce as much disturbance in their enforcement as the unauthorized congregations ever produced when let alone.

The number of immigrants arriving upon our shores from Europe is almost unprecedented, and three fold greater than last year. The increase is due to the hard times in Europe and revival of prosperity here. The Germans are coming in greater numbers than any other nationality. The German government has endeavored by every way possible to keep them at home, but they will not be restrained. With taxes in Germany steadily increasing, with the cost of living going up and wages going down, the government would have to put the whole population under lock and key to effectually discourage emigration.

A plan for sending silver coins through the mails is under consideration by the Treasury and Postoffice Departments and the House Committee on Coinage. It is found that fractional silver currency has a tendency to find its way back to the Treasury and accumulate there, creating a scarcity for general circulation and use. Under the plan suggested, it is proposed to authorize the free transmission of sums not less than $10, nor more than four pounds in weight, in registered packages, the applicants for the coin to pay the registration fee and be at all risk, while the Government on its part does the carrying gratuitously. In this way it is thought the subsidiary coinage can be kept in continual circulation at the money centers, and thence distributed the wants of business.

There is not much probability that the present Congress will do anything towards revising the tariff and relieving the country of some of its heaviest burdens. Even the most pronounced protectionists admit that the present laws abound in inconsistencies that ought to be remedied; but when the attempt is made the parties benefitted by the iniquitous arrangement so decidedly object as to prevent reform. To make sure the representatives of the various interests combine, or in other language, "pool their issues" and so bring their united forces to bear. The majority of the Democrats favor reform but there are just enough among them to unite with the subsidy Republicans and prevent progress. There are also a good many Republicans who are convinced of the wrongs of the present system, but many of them have not courage to make an open fight. Everybody in Washington is moving with reference to the presidential election and the practical interests of the country are left suffer.

An oleomargarine factory in South Baltimore was investigated recently by a party of Congressmen, representing the Committees on Manufactures and Agriculture; and either the oleomargarine they ate or something else they ate or drank got into their speeches which were oily and unctuous in praise of the beef fat. The conclusion of these festive gentlemen seemed to be that butter was superseded. One Congressman, amid much laughter, declared that he would never have another churn on his farm—"We will drink our milk and cream and buy oleomargarine." Well, we have no doubt but that oleomargarine is good enough for the average Congressman and are glad that they have come to know their place. But common people, with ordinary stomachs, will still prefer the products of the churn. By the by, some of the finest and best looking balls sold in our Newport markets are made from beef fat, etc., etc., etc. If we only knew what etc. stands for we should feel better—or worse.

Many genuine Republicans are greatly embarrassed as to their course of action with reference to the coming state election. They feel a lively interest in the success of the party to which they belong, and all the more so as its candidates are now of high character and eminent fitness for the positions assigned them. Mr. Littlefield and Mr. Fay are entirely unobjectionable as candidates for the high offices to which they are named. Not a whisper has been heard against either of them during the canvas, so far as character and ability are concerned, and under ordinary circumstances it would afford the people of Rhode Island great pleasure to elect them without a protest. The difficulty which lies in the way, and over which there is so much discussion, relates altogether to other men and the general conduct of the campaign. Notwithstanding all the demands that have been made or that can be made, it is well understood and fully believed that the nominations have been effected by the agency of a few who have forestalled caucuses, conventions, or any authorized expression of the people. Before a single primary meeting had been called the name of the candidate for Governor was known throughout all the state. His nomination was as certain as it was after the convention had met and recorded the decrees of those who had made up the slate. It is to this method of conducting party affairs that we object. Rhode Island politics have had to do with "great families" and personal ambitions long enough. The people have protested again and again, but this has effected nothing and will effect nothing just so long as they consent to vote the ticket made up by these self constituted managers. It is no use to object to a thing, and then go forward, year by year, in its support. The powers that be care nothing for protests so long as they can get the votes. There will never be a reform until the men who trade in votes are made to feel that they will not be supported at the polls by the people. We do not suppose the corruption this year is greater than it has been on some other occasions; indeed we do not believe there is half so much bribery and fraud as in some previous campaigns. But the whole thing is rotten. The man who goes about with the nomination of Governor in his pocket offering it to first one man and then another, must be made to feel that he has no nominations to give, or that if he gives them, he has no ability to fulfil his promises. When we hear of the offers that were made, we irresistibly think of Satan's proposition to give all the kingdoms of this world, when in fact he had not one to bestow. It is for the people of Rhode Island to decide whether a certain man in Providence has state offices to bestow at his pleasure or not. He has promised the people's votes: can he deliver them? That is the question for each independent citizen to answer for himself and the time is at hand when the problem must be solved.

The Graphic says there is scarcely a mountain range in New Mexico in which gold, silver and copper are not found. Everywhere the territory is being prospected. Discoveries are daily reported in the mountains which form the boundaries of the Rio Grand Valley, and mining districts are constantly being organized. A little way below Georgetown is the town of Silver City. Here is a mine which fairly represents the character of the district. Ore is being taken from the shaft daily, running up into the thousands. Twelve miles distant from Silver City are the Santa Rita copper mines. Upon the dumps of one of these there are tons of copper in native state, pure and ready for market without reduction. In the extreme southwest of the territory are the Shakespeare mines, where the lead, 75 to 150 feet in width, stand out in ledges 30 to 50 feet high. A little farther to the west are the San Simon mines, the latest discoveries which are exciting much interest. They cut squarely through a mountain at least 2,000 feet high between walls, and run from 30 to 150 ounces of silver to the bar. One "lead," thought to be the poorest, was left to be explored last. Six feet below the service the workmen uncovered a solid face of mineral twenty-five feet in width and assaying over $100 to the ton. In Lincoln county they have found leads of gold bearing quartz twelve feet in width, in every pound of which free gold is to be seen with the naked eye.

AN INQUIRY.

To the Editor of the Daily News:

Has land become so dear, or the city so poor, that our public buildings must be located where the tide ebbs and flows under them, and where a secure foundation can with difficulty be made? Have our city fathers examined the location of the new building for engine No. 2 since the work has commenced?

If they have not I think they should, for it is not often that an opportunity to see men in long rubber boots digging trenches for foundation of a brick building is afforded us. Does anyone imagine that the walls of this building will stand without cracking for one year's time? If they do it will be a disappointment to "TAX PAYER."

OUR ELECTION MUDDLE.

To the Editor of the Daily News:

That note from Mr. Fay includes the following expression, viz: As an humble citizen, outside of all political "machinery, rings, wires, pulling wool," etc., and formerly, when true principles were at stake, a straight Republican, I have quietly noted the movements of parties by and through the press, and other means. This habit gives one, not shut up to impression as a blind partisan, a better idea, perhaps than a hardened critic would have. The showing this season leaves one to select without compunction his own men for the year ensuing. No real convention has been held. Personal elevation and self-aggrandizement was the argument, as the "slates" were made for the two highest officers and delegates for the national convention.

Now to that note. Had a negotiable note signed with that name been given, it would have been honored anywhere in the state, but negatives alone afford no comfort. We, here so near the main, are not so far from Providence as to be ignorant of some facts of positive character. Both may be honest, but the proper judgment is intuitive. How should we thank that convention for its care for this stronghold? How was Mr. F. surprised at the unexpected honor tendered a citizen of such excellent record? No, Mr. Editor, that note does not satisfy our citizens.

STRATONT.

Many good and brave things were said at the services on Sunday in the Shawmut Church, commemorating the nailing up of the Baptist Church by the authorities, and the banishment of Roger Williams, in the old days. But one lamentable result of this proscription was not mentioned, that we observed: The descendants of the men who hung the witches, banished the Quakers and persecuted the Baptists, have evolved a class that make infidelity and bald irreverence a test of mental independence. The austere men who in former generations made of life a religion, and sot up their little private iron bedsteads on which to stretch out or cut off their fellows, would doubtless disclaim any responsibility for the condition of things at the other are of the pendulum, in our day; but those who note cause and effect know how much of the skepticism of these times is due to them. The lesson is not without its warning, although we have done nailing up church doors.—[Golden Rule.

THE CHORAL CONCERT.

A large audience listened with more than ordinary pleasure to the concert given by the Newport Choral Society last evening. The program was rather the best one that the society has given us, comprising very difficult and very beautiful numbers. It opened with Loreley, an unfinished opera of Mendelssohn's with its Ave Maria, by a chorus of ladies, the Vintage Song, by a chorus of gentlemen and the full chorus in the Finale, with Mrs. Eyre's magnificent rendering of Leonora, the deserted maiden who seeks vengeance of the Fays of the Rhine, in return for which they demand the surrender of herself to them forever. The solos, "Agreed! Agreed!" and "Away thou token of Love, thou Bridal Ring," and the accompanying choruses were most finely and effectively rendered. Brahms's Song of Destiny was full of fine harmonies and difficult passages and the Flight of the Holy Family was the most beautiful number on the program and beautifully sung, though, perhaps, not with as much confidence on the part of the chorus as most of the numbers. The part songs The Maiden of the Fleur de Lys, Shadow, and Gather ye Rosebuds were remarkably pretty though the last, being the final number, on the program, showed the fatigue of the chorus. The solos by Mrs. Bradford and Miss Taylor were rendered with exceeding sweetness and power, and both were warmly encored. Mr. Seabury, with his fine tenor song from the opera of Lurline, was enthusiastically received, and Mr. Frank gave a Recitative and Aria from the Creation, which showed his full, rich bass to great advantage. Nor should the quartette by Miss Taylor, Miss Lambert, Mr. Seabury and Mr. Frank be passed over without warm praise, for the voices harmonized remarkably well and showed excellent training. Mrs. Maynard played the accompaniments for the choruses with spirit and skill showing her to be a conscientious worker. Mr. Sherland's exquisite rendering of the accompaniments for the solos, proved him to be as fine a pianist as a conductor.

This is the sixth concert given by the Society and was received with so much enthusiasm and such a full house that the Society may always feel sure of the support of the music loving public.

AN HUMBLE PRINTER.

Seldom does a live Dutchman get credit of more smart things than are set down to him in this catechism that he put to a journeyman printer:

A Dutchman, sitting in the door of his tavern in the far West, is approached by a tall, thin Yankee, with a bundle hung on a cane over his shoulder.

"Vell, Mister Valking Stick, vat you vant?" inquired the Dutchman.

"Rest and refreshment," replied the printer.

"Supper and lotchin', I reckon?"

"Yes, supper and lodging, if you please."

"Do you a Yankee peddler, mid chewelry in your pack to cheat der gal?"

"No, sir; I'm no Yankee peddler."

"A singin' master, too lazy to vork?"

"No, sir."

"A sheatest shoemaker, vat loves to measure der gal's feet and hankies better tan to make der shoes?"

"No, sir, or I should have mended my own shoes."

"A book achent vot bodders der school committees till they do vot you wish, choost to get rid of you?"

"Guess again, sir. I am no book agent."

Ter tyefels! A dentist, preaking der people's jaw at a dollar a schnag, and runnin' off mit a daughter?"

"No, sir; I am no tooth puller."

"Phenologus, den, feeling der young folk's heads like so many cabbitch?"

"No. I am no phrenologist."

"Vell, den, vat der teyfels can you be? Choost tell, you shall have the best sassage for supper, and sdey all night free gratis, mitout a cent, and a chill of whiskey to start mit in der mornin'."

"I am an humble disciple of Faust—a professor of the art that preserves all arts—a typographer, at your service."

"Volsch dot?"

"A printer, sir; a man that prints books and newspapers."

"A man vot printsch noosepapers! Oh, yaw, yaw! ay, dat ish it. A man vot printsch anospapers! yaw, yaw! Valk up!"

A man vot printsch noosepapers! I vish I may be shot if I did not tink you vas a poor tyefel of a disbtrick schoolmaster who vorks for nodding and boards round. I tought you vas him.—[Exchange.

The paragraph referring to the President's Message concerning the Monroe Doctrine contained in our cable despatch of today will be read with surprise and disappointment by many. That its perusal will occasion a feeling of resentment among Columbians, will be no more than natural. We think however that this intelligence must be accepted with some reserve as not necessarily interfering with Mr. de Lesseps's plans, and they will be satisfactorily interpreted when fuller details are to hand.—[Panama Star.

Judge Thurman fairly cornered Mr. Blaine in the discussion as to the awards of the Geneva Tribunal, when he stated how the insurance companies justified their claims. Said he: "We got at it in the bill of 1871 by saying that the insurance company should only claim for what it had paid after a full exhibit of all its business of war risks, showing a loss on its whole business. Will the Senator apply that to a man who paid war premiums, and require him to furnish an exhibit of his whole business to see whether he made or lost money on it; and then, if he did not, say he shall have nothing for his premiums? He will not. Yet that is what is done in respect to the insurance companies. Although insurance is a lawful business, essential to the commerce of the world, that the companies had sustained no loss unless on a balance sheet, it appears they have paid more on war risks than they have received. Now, when it comes to a question of merchants or shipowners who have paid risks, the Senator won't apply any such doctrine."

A NEW ENTERPRISE.

We understand a plan is on foot among Boston and New England capitalists for the formation of an Angora goat industry, on an extended scale, in the highlands of Appalachian range, south. Suitable land can be obtained there at a cost of from twenty-five cents to one dollar per acre; in all particulars of altitude, temperature, vegetable, etc., such as is required for the success of the enterprise. A gentleman, who is familiar with the industry, and who has imported the goats direct from Asia Minor, has agreed to place on the ranche the best breed of the animals at a cost of not over one hundred and seventy-five dollars a head; while he also guarantees the native Mexican goats for use in grading up large flocks, at not over three dollars per head. Fifty thousand dollars will be ample capital as a basis for an industry numbering ten thousand head of Angoras. First-class mohair is worth today 75 cents to $1 per pound. The mohair industry, largely controlled by English manufacturers, can be made here—to the growers of fleece as well as to manufacturers—a very remunerative industry. We have recently met the oldest importer and breeder of Angoras in this country, whose recent importation, noted in the Daily Advertiser a few weeks ago, gives him twice the weight of fleece he has heretofore had grown on his goat ranche among the mountains of Georgia.

Manufactures of plushes, braids, etc., will be at once started in this country on a large scale, if our manufacturers can be regularly supplied with the raw materials in sufficient quantity. As this country now leads the world in the character of its merino wools, now the basis of so large and lucrative an industry, yet not long since the monopoly of Spain, so there seems to be no solid reason why we should not raise in large numbers the most valuable known lanigerous animal, and the factories in America for the consumption of mohair rival those of Saltaire and Lyons in Europe, or the more ancient ones of Angora an Diabekir in Asia Minor.—[Advertiser.

The Sir Henry Havelock, who has recently changed his name to Havelock-Allen, in consideration of a bequest of $2,500,000 from a cousin, is the eldest son of the great Sir Henry Havelock, the hero of the Indian mutiny. For his services in defeating Nana Sahib at Cawnpore, and for his relief of Lucknow, General Havelock was made a K. C. B. and a baronet. Strangely enough, the letters-patent were made out on the very day after his death, which occurred at Alum Dugh, in November, 1857, two months after his march to Lucknow. The honors which failed to reach him in life were, however, continued to his son.

SUNDRIES.

There is sleep for the eye that is tearful,
A balm for the heart that is sad—
And a calm for the spirit that is fearful,
And for every liver—a pad.

Domestics belong to the hire class of society.—[Yonkers Statesman.

Three scruples make one dram, and yet many a man takes a dram without any scruples whatever.

A youngster, while warming his hands at the fire, was remonstrated with by his father, who said: "Go away from the fire; the weather is not cold." "I ain't heating the weather, I'm warming my hands," the little fellow demurely replied.

Yes, the infant has genius. Notwithstanding all the care, trouble and anxiety it is to be happy possessors of the article, it can warm up their hearts, swell their bosoms with pride, and make very wicked people thank Heaven that there is something worth living for. At the same time we wouldn't take an infant as a gift.—[New Haven Register.

There was a young woman named Hannah,
Slipped down on a piece of bananah,
She shrieked and oh my'd,
And more stars she espied
Than there are in the star spangled banner.

A gentleman sprang to assist her,
He picked up her muff and her wrister.
"Did you fall, ma'am?" he cried,
"Do you think?" she replied,
"I sat down for the fun of it, mister?"

A FRENCH SWINDLE.

J. W. Mackay, the fortunate California miner, revealed recently one of his experiences in Paris, wherein he was scandalously duped. It was his first visit to France, his arrival in Paris at a certain time had been mentioned in the newspapers there, with the fact that he had engaged apartments at the Hotel Anglais. When he reached the station he was surprised to find a pleasant looking, extremely courteous Frenchman, who spoke English, waiting for him, saying that he had been expected. The stranger made sure of his name, however; placed him in a carriage, attended to his luggage, and drove him to the hotel. There he brought him the register to sign, and Mackey signed it, while the Gaul, as if by accident, held a bit of blotting paper over the name of the house at the top of the page. "When I turned away," said the millionaire, "he remarked, 'I hope you will be pleased with the Hotel Francais.' 'But I don't want to stay there.' The hotel Anglais is my place as I've told you.' 'A thousand pardons. How stupid I am to have made such a blunder! I misunderstood you.'" Then calling a carriage, he transferred Mackey, himself, and baggage to the Hotel Anglais. The Californian thought that it was all right until he received, six months after, an interminable bill from Hotel Francais for five months' board, with wine and every sort of extra. The fellow had, on leaving him, gone directly back to the Francais, passed himself off for the miner, lived in grand luxury, and whenever the bill was sent in, deferred payment on some pretext or other. The rogue finally quitted the house, and directed the bill to be sent to Mackey's San Francisco address, and has not been heard of since. The Californian now entertains the opinion that a Frenchman can "out-beat" any bent on the Pacific slope.

PAINTING, &c,

As we will warrant to do as good work and furnish as good stock as can be done in this or any other city.

Also paint and varnish carriages, from a wheelbarrow or baby carriage, to the largest coach, and use the best of varnishes on the best of jobs, and will use the poorest varnish on the cheapest jobs.

I keep in stock several kinds of varnish to sell by the measure. Have all grades of Valentine's varnish, in one gallon cans, which will be sold at small advance from cost. This varnish is used altogether by Brewster of New York, and other first class carriage makers. Have on hand, about

ONE HUNDRED CARRIAGES!

Both old and new, which I will sell at a very low price, quality considered. Don't go out of town to purchase a carriage, when you can buy one here, and if it does not prove as recommended you will have the privilege of calling upon us in person and asking What, never? Well, HARDLY ever!
